The jacks complex is comprised of the following species: almaco jack, banded rudderfish, and lesser amberjack. The 2014 commercial catch limit is 189,422 pounds whole weight. Reports indicate that landings are approaching the 2014 catch limit for the commercial sector.

The prohibition on sale does not apply to sale or purchase of jacks that were harvested, landed ashore, and sold prior to 12:01 a.m. (local time), July 15, 2014, and held in cold storage by a dealer or processor.

During the closure:
